Executive Summary

Superior written and verbal skills	Working from source materials such as technical specifications, existing operating procedures, and software under development, and conferring with subject matter experts, I produce award-winning, clear, concise written materials that provide the right level of detail to meet the needs of a variety of audiences.
Participation in software development life cycle	<p>I have worked on various types of agile, SDLC, and extreme development teams to produce and implement quality software products quickly. For example, at Coast Capital Savings (CCS) we used agile development to deliver online help for their T24 implementation. I worked with a team of business analysts, trainers, subject matter experts, software developers, testers, project managers, and business end users to document processes as they were finalized for the business. I have also contributed to user interface design and testing on numerous projects.</p> <p>Experience of 20+ years on software teams: NRECA • DMSI • CCS • Vancity • Rockwell Automation • Rockwell Software • Dynapro Systems • Chancery Software • Xinex Networks • Computer Associates.</p>
Wide range of industry and subject matter experience	Banking and credit unions • computer software • telecommunications • construction • power generation • insurance • taxation • operations • accounting • libraries • fashion • health care • engineering and geoscience • client-server and network operations • environmental remediation • irrigation • food warehousing and delivery • automated manufacturing processes • oil and gas • quick service restaurants • project management.
Time management, problem solving, and analytical skills	I meet all deliverables and deadlines, always. I achieve this through using resourcefulness, innovation, and collaboration to solve problems and accurately analyze project needs. I use an iterative process to communicate solutions and translate analysis into concrete written results. I specialize in gathering information from business stakeholders and project team members and synthesizing large quantities of data into customized deliverables that meet end users' needs. I excel at managing multiple tasks simultaneously, using exceptional organizational skills to track all requirements and work-in-progress and to prioritize the workload.
Writing and developing for the web	I have been developing materials for the web, including web-based training tools, since 1996. On a recent project for APEGBC, I created a web-based document library with interactive graphical mindmaps of the stages of the registration and licensing process, policy briefs, and other online resources that staff and volunteers use in their daily work. I also developed and delivered standard operating procedures via their internal wiki. I have developed and edited numerous websites using HTML and JavaScript. Currently working in HTML5.
Leadership, project management, and staff training	I enjoy helping people learn, understand what is required of them, develop their potential, and succeed. My first project manager role was in 1996 (Xinex), when I coordinated production of user documentation and marketing materials, managing a team of contractors. I was Documentation Lead for Vancity and CCS, where I managed small writing teams and directed some software development work. I have trained staff in almost all the companies I've worked for. As STC CWC chapter president, I guided a volunteer team that grew from 12 to 27.
Developing and following standards and guidelines	On every project, I first look for existing standards and guidelines, and if they don't exist, I develop them as needed. I have developed numerous style guidelines; recent clients include A&W, Sysco, HOCHTIEF AG, Tervita, and Able Irrigation. I helped Vancity and CCS develop terminology guidelines to use in their T24 user interface.
Information architecture and content management	For a project with APEGBC I created an accessible web-based delivery structure for 180 policies and related documents. On another project I organized 20,000+ files of user manuals and online help into a structure that was easily accessible from a few menu items. I follow industry standards and best practices for content management, source control, and version control. At CCS I set up a content management system for hundreds of online help files using SharePoint. I am experienced with structuring content using XML and DITA.
Excellent interpersonal skills	I like working with others towards a common goal. I listen carefully to what others say, treat people with respect, and am a fun, supportive team member. I am comfortable with conflict resolution and work towards mutual understanding, relationship building, and pragmatic solutions. For information about the positive contributions I have made as a team player, please see the recommendations of my work on LinkedIn .

Summary

I have worked as a technical writer for over 20 years, writing and editing many types of documentation. My role varies from supervising writers in-house to writing for an international team where all the communication is virtual. I have a diploma in Professional Writing from the highly regarded Print Futures program at Douglas College, as well as a Bachelor of Business Administration degree and an MA. I served my professional organization, the Society for Technical Communication's [Canada West Coast](#) chapter, in its highest office, president. I helped the chapter win two STC Pacesetter awards for innovation. I was also honored to win the STC's Distinguished Award for technical communication. I was the Competition Judging Manager for the STC's International Summit Awards in 2016.

I produce top quality documentation quickly and always meet deadlines. I learn about my clients' business and products rapidly, and am adept with the latest development tools. I have been a consultant since 1995, and incorporated in Canada in 2003. I formed a New York-based limited liability company in 2017. On [LinkedIn](#), my clients say my top qualities are "expert, great results, on time, high integrity."

Skills

Writing and editing • project management • interpersonal communication • business analysis • requirements gathering • document and web design • user interface design • research • supervising and training • regulatory reporting • accounting and financial analysis • blogging.

Writing Experience

User and system administration manuals • professional journal articles • business cases • project plans • functional and design requirements • standard operating procedures • online help • web materials including online tutorials, websites, forums, and wikis • training and quick reference materials • process maps and diagrams • white papers • newsletters • press releases • proposals • style and terminology guidelines • mindmaps • legal documents • forms, letters, and reports.

Computer Experience

Text, Layout, Web, Graphics, and Help Software

Microsoft Office Suite, MS Project, SharePoint Designer, Adobe Technical Communication Suite (FrameMaker, RoboHelp, Acrobat Professional), MadCap Flare, Adobe Creative Suite (InDesign, Dreamweaver, Captivate, Illustrator, Photoshop), WordPress, Corel Paint Shop Pro, many others.

Other Software

Temenos T24, Microsoft SharePoint, Microsoft Visio, Microsoft Project, Kentico CMS, Confluence, Zendesk, Accpac Accounting, Arena modeling software, Baan ERP (now Infor ERP), many others.

Writing and Publishing Experience

Consulting Work

1995–present

[Enica Engineering](#) Assisted Manhattan software development team to capture functional requirements for energy metering software. Developed progress reporting visualization tools. (2018)

Senior Documentation Specialist

Unless other role indicated in bold

[Sysco Canada](#) Assisted management team to develop handbooks of standard operating procedures. Designed, formatted, and edited handbooks for associates across Canada. (2013–2017)

[Chenoa Information Services](#) Assisted IT company to prepare proposal for the New York City Mayor's Office of Criminal Justice (MOCJ). Developed template and writing standards. (2017)

Smaller projects omitted for brevity.

[A&W Canada](#) Converted Operations Manual to MadCap Flare; restructured and updated content to reflect current standards and procedures. Trained staff. Liaised with French translator. (2016–2017)

[AltaLink](#) Assisted with documenting systems to verify and validate North American security protocol compliance for power grid. Assisted team to create documentation standards and templates. (2016)

[HOCHTIEF AG](#) **International Technical Editor Consultant.** Edited legal claims preparation documents for international arbitration. Worked with engineers in Chile and Germany. (2016)

[NRECA](#) **International Technical Writer Consultant.** Wrote task-focused user manual for electrical utility billing software. Worked closely with software developer in Haiti. (2015–2016)

[Design Maintenance Systems Inc.](#) Updated legacy software documentation using RoboHelp for online help and FrameMaker for user's guides. Converted manual to Russian. (2015–2016)

Consulting Work

1995–present, cont'd

Senior Documentation Specialist

Unless other role indicated in bold

[BC Hydro](#) Converted training materials into MadCap Flare. Developed scalable MadCap Flare project structure and templates for multi-role, multi-output content management system, including PDF and HTML5 target outputs. Trained staff to update content in MadCap Flare. (2015)

[Chevron Canada](#) Wrote standard project management and risk management procedures and guidelines for the Burnaby refinery. Edited & formatted 190-page handbook in 3 days. (2014–2015)

[Able Irrigation Ltd.](#) Wrote comprehensive manual of SOPs, policies, and guidelines that helped owners sell company. Assisted owners to refine mission statement, develop web content, and expand use of social media. Edited company website. (2012–2015)

[Engineers and Geoscientists BC](#) Analyzed, organized, wrote, and delivered web-based policy briefs for licensing and registration process. Created mindmaps. Wrote formal and informal standard operating procedures (SOPs) for wiki. Trained staff. (2013–2014)

[Insurance Corporation of BC](#) **Business Analyst | Technical Writer.** Analyzed tax content and updated existing forms, letters, and online procedural manuals for PST conversion project, working with business analysts, subject matter experts (SMEs), and stakeholders at every level of ICBC. Assisted other team members with their deliverables. (2012–2013)

[Tervita](#) Edited, analyzed, and prepared documentation for project proposal packages for RFPs and RFQs. Identified gaps in required content. Created style guidelines for proposal team. (2012, 2013)

[Inventure Solutions Inc. – A Vancity Company](#) **Documentation Lead | Business Consultant.** Recommended improvements to the user interface of T24 software for banking system implementation. Captured To Be procedures during team-based process reviews. Developed online help framework and topics. Trained and supervised team members. (2011–2012)

[Coast Capital Savings Credit Union](#) **Documentation Lead.** Designed and implemented end user documentation for T24 banking system implementation using single sourcing and version control. Worked with developers to integrate new online help into T24 screens. (CCS sold this solution back to Temenos.) Worked with business team to design and develop software menu structure, integrated with system security. Documented database back-end which used SQL to serve banking data to front-end software. (2010–2011)

[Rockwell Automation, Inc.](#) **Information Developer.** Updated online help, users' guides, and installation guides for manufacturing process control and data modeling software, working with an international team. Updated a documentation set consisting of 20,000+ files, 7 users' guides, and 20 help projects in 9 months. Prepared PDF files well in advance of final software builds. (2006–2009)

[Rockwell Software Ltd.](#) **Information Developer.** Planned, wrote, and edited users' guides, installation guides, getting started guides, reference guides, readme files, and online help for manufacturing process control software. Documented client-server software with object-oriented programming using C and C++. Worked with an international team on multiple projects and products. Coordinated user interface design. Designed HTML style sheets and produced HTML help. Edited XML code. Converted Interleaf documents to FrameMaker. (2000–2006)

Dynapro Systems Inc. Technical Writer. Researched, wrote, edited, and desktop published manuals and online help for manufacturing process control software and hardware. Interviewed staff in every department and documented internal financial, resource planning, and production (ERP) processes, producing a 1,200-page manual that helped owner sell company. (1996–1999)

Xinex Networks Inc. Documentation Manager. Coordinated production of user documentation, online help, and marketing materials for telecom and multimedia products. Wrote wizards, white papers, speeches, press releases, and presentation materials. Hired and supervised independent contractors. Updated website (now defunct). (1996–1997)

Author

Complete Beading for Beginners
[Harbour Publishing Co. Ltd.](#)
Pender Harbour, BC
1994–1996

Concept Development and Promotion Researched, wrote, designed, illustrated, and desktop published 66-page, full-color prototype of beading how-to book. Pre-sold 1,500 copies. Obtained distributor. Expanded content to publisher specifications (final length 159 pages).

Awards STC Canada West Coast chapter's Distinguished Award in the Training Materials category, 1996. STC's International Merit Award for Training Materials, 1997. Canadian best-seller.

Technical Writer

Computer Associates
(Now [Sage Group plc](#))
Vancouver, BC
1993–1995

Technical Writing Planned, wrote, edited, and indexed accounting software user manuals; designed, wrote, and desktop published newsletters and a quick reference card that shortened manual length by 52 pages; wrote update notices; documented procedures for internal writers' handbook; prepared text for French translation; checked finished translation for completeness and accuracy; wrote and compiled online help; created sample data and forms; met all deadlines.

Writing experience prior to 1993 omitted for brevity.

Publication Credits

1992–present

Newspaper, Magazine, and Creative Writing Contributed articles, reviews, fiction, and poetry to these and other publications: BC Woman, Canadian Health Care Magazine, Discorder, Intercom, Merritt Herald, Room of One's Own, TV Week Magazine, Vancouver Sun, WestView News.

Business and Administrative Experience**President**

Monkey Valley Enterprises LLC
New York, NY
and

Monkey Valley Enterprises Inc.
Vancouver, BC
1995–present

Direct all aspects of international consulting business, including marketing services to clients; maintaining [website](#); managing work-flow, correspondence, purchasing, and record-keeping; accounting; tax and other government reporting; financial planning; and furniture assembly!

Self-employed consultant since 1995. Incorporated in Canada in 2003 as Monkey Valley Enterprises Inc. Organized the New York-based LLC, Monkey Valley Enterprises LLC, in 2017.
